Soubhik Kumar Mitra
Machine Learning Intern
House No-50, Village- Jhikarhati,
Pakur, Jharkhand, 816107

To whom so ever it may concern:

Soubhik worked as a Machine learning intern at Tvish for 3 months. Over time I was continuously impressed by his diligence in all the required tasks he was assigned to. He is persistent in his efforts towards machine learning tasks and is deeply involved in development and deployment of all parts of a product.

I would highly recommend Soubhik for any of the challenging work related to Data collection and preprocessing in the field of Artificial Intelligence. He is able to look and state data clearly in research.

Sincerely,

Recommendation Letter
